1．試験開始の合図があるまで、この問題冊子の中を見てはいけません。
2．この問題冊子の最終ページは、８ページです。
試験開始後に問題冊子の印刷不鮮明、ページの落丁・乱丁及び解答用紙の汚れ等に気付いた場合は、手を挙げて監督者に知らせてください。
3．解答用紙は、３枚あります。
以下７．に示した学科別大問の解答用紙がすべてあるか確認してください。
監督者の指示に従って、解答用紙すべてに受験番号と氏名を正しく記入してください。
4．解答は、問題ごとに、解答用紙の所定の欄に記入してください。
5．問題冊子には白紙のページがありますので、下書き用紙として利用してください。
6．問題冊子は持ち帰ってください。
7．志望学科ごとに以下の問題（○表示）を解答してください。

志望学科	第１問　～　第３問	第４問	第５問
経営学科	○	○	
国際経営学科	○		○
公共政策学科	○	○	
実践経済学科	○	○	
国際社会学科	○		○
看護学科	○	○	

第１問　次の英文を読んで、問いに答えなさい。

Homework can cause considerable stress for parents and children. Research has shown that homework is not necessary and that too much homework can actually be counterproductive* while robbing children of important play time. (ア), most schools give children homework assignments.

Many children find homework (イ) or disagreeable, and parents feel they must set and enforce homework rules. This situation can lead to a vicious cycle* as children become increasingly resistant, and parents become increasingly authoritarian*. The resulting power struggles can lead to mutual frustration and anger.

Your job is not to *make* your children do their homework but to help and support them. If you can think of yourself less as a dictator* and more as a facilitator, things will probably go more (ウ). The following three mistakes can lead to homework struggles and conflicts: expecting children to complete their homework too soon after school, expecting children to do their homework alone, and treating the topic of homework too seriously.

After a full day of school and after-school activities, children need time to relax, play, and release stress from the day. If you allow your children to do so, they will be able to (エ) much better on their homework afterwards.

Most children don't like to do homework alone. I recommend offering to help with homework. Be aware, however, that your children may resist unbidden* teaching, so don't give information or point out mistakes without their permission. Your children will probably benefit more from your explanations if you wait for their questions (オ) if you offer unbidden information.

Homework doesn't have to be (カ). Remember that children learn best through play. If you think of your children's homework as a wonderful opportunity for play and connection, you and your children will both enjoy it, and they will learn more quickly and effectively.

Some parents fear that a playful approach to homework will somehow "spoil" their children. They think that it's good for children to do things they don't (キ) to do (such as tedious* homework), because this will help them become successful and develop a good work ethic for later in life. This assumption is incorrect. Drudgery* and hard work do not build character or lead to meaningful learning or good habits. (ク), they can lead to feelings that interfere with the learning process, such as resentment*, anger, frustration, or boredom. Furthermore, forcing your children to do homework can damage your relationship with them.

Children are born highly motivated to develop their skills and strive for mastery*. If the learning process were tedious and disagreeable, children would never learn to walk or talk. These (ケ) are difficult to master, yet children tackle them with obvious pleasure. Sometimes

they become frustrated in their efforts to learn these skills, but they persevere* with strong determination even though nobody tells them to do so. That's (コ) the *process* of learning to talk or walk is naturally pleasurable for young children. They are highly motivated to learn these skills and don't need any kind of external control, punishments, or rewards to do so.

【注*】 counterproductive : 逆効果の　a vicious cycle : 悪循環　authoritarian : 権威主義の
dictator : 独裁者　unbidden : 頼まれていない　tedious : うんざりする
drudgery : 困難な仕事　resentment : 恨み　strive for mastery : 精通しようと努力する
persevere : やり抜く

問　自然な英文になるように、(ア) ～ (コ) に入れるのにもっとも適切な語を、それぞれ次の 1～4 のうちから一つずつ選び、番号で答えなさい。

(ア)	1. Naturally	2. Otherwise	3. Therefore	4. Unfortunately
(イ)	1. boring	2. changing	3. increasing	4. interesting
(ウ)	1. similarly	2. slowly	3. smoothly	4. suddenly
(エ)	1. carry	2. focus	3. take	4. turn
(オ)	1. and	2. as	3. but	4. than
(カ)	1. done	2. easy	3. enjoyed	4. serious
(キ)	1. learn	2. refuse	3. tend	4. want
(ク)	1. Additionally	2. However	3. Instead	4. Thankfully
(ケ)	1. experiences	2. languages	3. talents	4. tasks
(コ)	1. because	2. how	3. what	4. who

第２問　次の英文を読んで、問いに答えなさい。

The Vieira family moved from Brazil to the United States in 2001. At that time, they made a decision. They decided to stop speaking Portuguese at home and only communicate in English. They were, in fact, living in an English-speaking country. The Vieira children are adults now, and from time to time they travel to Brazil to visit family and old friends. There is a problem, however. Mr. and Mrs. Vieira's children cannot communicate with their relatives. This same situation happens frequently all over the world. When people move to a new country, many of them begin to forget not only their culture but also their first language, and as time passes, they lose the many benefits of being bilingual.

One of the most basic advantages of being bilingual is easier communication with more people around the world. People who can speak both English and Spanish, for example, can travel to more countries without worrying about communication. In contrast, people who are monolingual must depend on others in order to communicate. Using another person to translate for you is not the same as being able to understand speakers yourself. Because bilingual speakers are in complete control of their own words and ideas, communication is more direct and easier.

Speaking a second language also allows people to learn about another culture through the special words and phrases in that language. For example, a person who speaks North American English knows the expression "meat and potatoes." If we say someone is a meat and potatoes kind of person, it means that person does not like special food. Therefore, it also tells us that in this culture, meat and potatoes – not rice, not pasta, not fish – are considered normal food. In English, *to rat on someone* is to tell someone else what that person did, and *to be a rat* is to be a bad person. From these expressions, we can tell that a rat is a bad animal in this culture, but a rat may be good in another culture. Finally, through the baseball expressions *to hit a home run* (to do something that is very successful) or *to strike out* (to fail completely), we learn that the sport of baseball is important in North American culture. Thus, becoming bilingual can increase knowledge of not only a new language but also a new culture.

Finally, bilingualism can help people from different countries, languages, and cultures get along better. If everyone in the world spoke a second or third language, it would be much easier to understand other people's ideas, beliefs, and actions. This would also include a better understanding of the problems and situations in other countries. If we can understand each other more, perhaps we can accept our differences and get along better.

The benefits of bilingualism are clear. Being bilingual helps with communicating, learning a new culture, and getting along with other people. People who already have the gift of speaking another language sometimes lose the ability to communicate in their first language. If they do not try to maintain their first language, they will clearly miss out on all the wonderful benefits of being bilingual.

問　本文の内容に合うように以下の要約文を完成させる際に、（ア）～（ク）に入れるべきもっとも適切な英語（1語）を、それぞれ答えなさい。

When the Vieira family moved to the U.S. from Brazil in 2001, they decided to (ア) up using Portuguese and only speak English. The children then had difficulty in communication when they visited Brazil as adults. Cases like this are (イ) all over the world. Moving to a new country, people may begin to forget their first language and culture, and gradually they cannot enjoy the benefits of being bilingual. One benefit of being bilingual is that you can communicate more (ウ) with people around the world. On the other hand, people who can speak only (エ) language have to depend on others for communication. People who speak a second language can also learn about another culture with the (オ) of special expressions in that language. In North American culture, for example, the phrase "to hit a home run" suggests (カ) is important. Above all, if everyone in the world spoke more than one language, they would have a better understanding of other people's ideas, beliefs, and actions, which would (キ) them to accept their differences and get along better. Being bilingual may introduce many challenges, but if people can (ク) both languages, they will surely enjoy many wonderful benefits.

第３問　次の英文を読んで、問いに答えなさい。

Who would have thought that the package of notecards my mother gave me for my tenth birthday would have been one of the most valuable gifts I have ever received. They were light blue and said "Tina" in block letters on the top. At that age my mother taught me how to write a thank-you note and how important they are. She couldn't have been more (a). In fact, as I grew up and ultimately entered the work world, I often tried to channel* my mother, who always seemed to know what to do in social settings. But the importance of writing thank-you notes remains one of her most valuable lessons.

(ア) Showing appreciation for the things others do for you has a profound effect on how you're perceived. Keep in mind that everything someone does for you has an opportunity cost. That means if someone takes time out of his or her day to attend to you, there's something they haven't done for themselves or for someone else. It's easy to fool yourself into thinking your request is small. But when someone is busy there are no small requests. They have to stop what they're doing, focus on your request, and take the time to respond. With (イ) that in mind, there is never a time when you shouldn't thank someone for doing something for you. In fact, assume a thank-you note is in order, and look at situations when you don't send one as the exception. Because so few people actually (ウ) do this (unfortunately), you will certainly stand out from the crowd.

[A] Some are intuitive* and others surprising. Some are taught in schools but most are not. Over the years I've stumbled* many times, sometimes irreversibly*, by not understanding these "little things."

[B] Of course, this isn't true literally. But it often feels that way because you're likely to bump into people you know, or people who know the people you know, all over the world. The person (b) next to you might become your boss, your employee, your customer, or your sister-in-law. Over the course of your life, the same people will quite likely play many different roles. I've had many occasions (c) individuals who were once my superiors later came to me for help, and I've found myself going to people who were once my subordinates* for guidance. The roles we play continue to change in surprising ways over time, and you will be amazed by the people who keep showing up in your life.

[C] You aren't going to like everyone and everyone isn't going to like you, but there's no need to make enemies. For example, when you look for your next job, it's quite (d) that the person interviewing you will know someone you know. In this way your reputation precedes you everywhere you go. This is beneficial when you have a great reputation, but (エ) [damaged / harmful / is / reputation / your / when].

I've seen the following scenario play out innumerable* times. [①] The interview goes well and you appear to be a great match for the position. [②] [③] A casual comment from her friend about your past performance can seal the deal* or cut you off at the knees*. In many cases you will believe (カ) the job was in the bag, right before you receive a rejection letter. You'll never know what hit you.

【注*】channel : (霊を) 呼び寄せる　intuitive : 直感的な　stumble : つまずく
irreversibly : 取り返しのつかないほどに　subordinate : 部下
innumerable : 数え切れないほどの　seal the deal : 取引が成立する
cut～off at the knees : ～を途中でだめにする

問1 英文中の (a) ～ (d) に入れるのにもっとも適切な語を、それぞれ次の1～4のうちから一つずつ選び、番号で答えなさい。

(a)	1. careless	2. casual	3. correct	4. famous
(b)	1. seat	2. seating	3. sit	4. sitting
(c)	1. what	2. where	3. which	4. who
(d)	1. important	2. impossible	3. likely	4. unlikely

問2 下線部（ア）を日本語に直しなさい。

問3 下線部（イ）が指す具体的内容を６０字程度の日本語で書きなさい。

問4 下線部（ウ）が指す具体的内容を英語で書きなさい。

問５ 本文中の[Ａ]～[Ｃ]に入れるのにもっとも適切な英文を、それぞれ次の 1～4 のうちから一つずつ選び、番号で答えなさい。ただし、同じ番号を二度以上用いてはいけません。

1. Because we live in such a small world, it really is important not to burn bridges, no matter how tempted you might be.
2. First and foremost, remember that there are only fifty people in the world.
3. I'm reminded of a case a few years ago when a student came to me for advice.
4. Some of the other little things that make a big difference in your life are simple, while others are more challenging.

問６ 下線部（エ）の［　］内の語を本文の内容に合うように、正しく並べ替えなさい。

問７ 自然な英文の流れになるように、［①］～［③］に入れるのにもっとも適切な英文を、それぞれ次の 1～5 のうちから一つずつ選び、番号で答えなさい。ただし、同じ番号を二度以上用いてはいけません。

1. After the interview, she makes a quick call to her friend to ask about you.
2. During the meeting, the interviewer looks at your résumé and realizes that you used to work with an old friend of hers.
3. Essentially, your reputation is your most valuable asset － so guard it well.
4. Imagine you're interviewing for a job that has dozens of candidates.
5. With time it is possible to repair a stained reputation.

問８ 下線部（カ）が指す具体的内容を１０字以内の日本語で書きなさい。

問９ 本文の内容と一致するものを、次の 1～5 のうちから二つ選び、番号で答えなさい。

1. Even after getting a job, Tina would often visit her mother for advice.
2. If someone takes time to help you, they may spend a lot of money.
3. Tina made many mistakes in life by not realizing the importance of "little things."
4. You will be surprised to see how often the same people appear in your life.
5. When you fail to get the job you want, you usually know the reason why you are rejected.

【選択問題】

経営学科、公共政策学科、実践経済学科、看護学科の受験者は、第４問を選択

第４問　次の問いに答えなさい。

問１　次の日本文（1）、（2）を英語に直しなさい。

（1）かつて日本は夜道を一人で歩いても安全であると考えられていた。

（2）しかし、このところ凶悪犯罪の数が急増しており、平和な国だとはもはや言えない。

問２　あなたの住む町の魅力を高めるために、あなたがしてみたいことを５０語程度の英語で書きなさい。使用した語数も指定の欄に正しく記入しなさい。

国際経営学科、国際社会学科の受験者は、第５問を選択

第５問　あなたがこの学科を志願した理由を１００語程度の英語で書きなさい。使用した語数も指定の欄に正しく記入しなさい。
